

SFI 38.1 Recertifications HANS Devices

SFI 38.1 Head and Neck Restraints must be recertified every five years to maintain SFI certification. For example, if your device was certified in January, 2012 or earlier, it will require recertification by February 1, 2017. Devices passing the inspection will receive a new SFI 38.1 conformance sticker marked with the inspection date that will remain valid for five years. Please see below for the costs of this service and instructions for recertification.

FEE SUMMARY	HANS DEVICES

I have elected to return my SFI 38.1 head restraint to Simpson Performance Products for recertification. I am responsible for shipping the device to and from Simpson Performance Products. I have been informed about the recertification process. I agree to pay all fees plus any applicable parts and shipping. If any additional repairs are necessary I will be contacted by a Simpson representative and given the opportunity to accept or decline additional charges before the work is done. If the necessary repairs to recertify the device are declined by me, the device will be returned without a new SFI recertification sticker.
