I have elected to return my SFI 38.1 head restraint to Simpson Performance Products for recertification. I am responsible for shipping the device to and from Simpson Performance Products. I have been informed about the recertification process. I agree to pay the \$25.00 recertification fee plus any applicable parts and shipping. If any additional repairs are necessary I will be contacted by a Simpson representative and given the opportunity to accept or decline additional charges before the work is done. We must see your product before determining the level of recertification you need. Again, we will call you before the work is done. If the necessary repairs to recertify the device are declined by me, the device will be returned without a new SFI recertification sticker.
